NARCISSE TRIANO

FORMULA 4 DRIVER // KIWI MOTORSPORT // WEST COAST CHAMPIONSHIP

I'm Narcisse Triano, a Formula 4 driver with Kiwi Motorsport competing in the West Coast Championship — with 3 podiums in my first 4 races this season and 2 races still remaining. My next step is owning my own race car, which is what it takes to keep building toward F1 Academy. This package lays out exactly how a partnership works, what it costs, and what you get back — from a local business getting started to a brand ready to go all-in as a title partner.

Why Partner With Me

Racing sponsorship isn't just a logo on a car — it's brand exposure to an engaged, growing motorsport audience, plus association with a driver actively climbing the single-seater ladder toward professional racing.

- Averaging 200,000+ views per month across social platforms, with consistent month-over-month growth
- Active on Instagram (~4K followers) and TikTok (~1.2K followers), both growing steadily
- Suit and helmet branding visible at every race weekend, plus photo/video content from each event
- Direct, personal relationship with a driver who represents your brand on and off the track

Get In Early

F1 Academy is my next upcoming goal, and it changes the scale of this partnership entirely. F1 Academy races run alongside F1 race weekends and plug into F1's global broadcast and media ecosystem — a completely different level of visibility than regional F4. A sponsor who signs on now, while I'm still building my following, locks in a relationship at today's rate and grows right along with the audience.

- International exposure through F1's broadcast and media reach once at F1 Academy level
- Ground-floor pricing — today's tiers are a fraction of what this exposure will cost once I'm there
- A stronger brand story: partners who backed me early are part of the come-up, not just the payoff

Partnership Tiers

Every tier is built to be genuinely useful at its price point — nothing here is filler. Multiple partners can combine across tiers, and tiers can be customized (e.g., product-based or in-kind support instead of cash — see below).

Tier	Investment	What You Get	Best Fit
Bronze	**$1,000 – $1,500**	• One dedicated social media post per month + regular Story mentions • Name/logo on website partner page (with link)	*Local shops, gyms, restaurants, family-owned businesses*
Silver	**$6,000 – $8,000**	• Everything in Bronze, plus: • Logo on helmet OR fireproof suit (secondary placement) • 2+ social posts/month • Mentioned in race-weekend recap posts	*Regional businesses ready for real visibility*
Gold	**$10,000 –**	• Everything in Silver, plus:	*Growth-focused brands wanting*

Tier	Investment	What You Get	Best Fit
	$15,000	• Primary suit placement • Featured on co-branded merch drop • Bio mention across all platforms + website homepage	*strong visibility*
Platinum	**$25,000 – $30,000**	• Everything in Gold, plus: • Premium helmet placement (in addition to suit) • Custom co-branded merch line (revenue share available) • Race-weekend appearances / meet & greets	*Companies wanting a season-long brand partner*
Title Partner	**$100,000**	• Everything in Platinum, plus: • Primary livery / car placement + "presented by" naming rights • Exclusive behind-the-scenes content series • First right of refusal for future campaigns as I progress • VIP paddock experience for your team/clients	*One anchor brand funding full car ownership for the season*

Note: car placement is reserved for the Title Partner level ($100,000) — the single partnership that funds full ownership of my race car for the season. Every other tier is built around suit, helmet, and social media placement, which are available to any partner at that level.

Beyond Cash: In-Kind & Product Partnerships

Not every partnership has to be a check. I'm also open to product and service partnerships — equipment, apparel, travel, nutrition, recovery/training support, or services your business provides — valued at the equivalent tier level above. These are a great fit for brands who'd rather provide product than cash, and they're just as valuable to me.

Sponsor Merch

For Gold tier and above, I create co-branded merchandise featuring your logo alongside mine — a way for fans and followers to proudly represent both of us, and for your brand to live outside the racetrack too.

The Goal: Owning My Car

F1 Academy is supplied and backed by major companies once a driver is picked up — but getting to that point means proving myself with my own program first. Owning my race car for the season is the real, immediate goal, and it comes with a real price tag: roughly $100,000. That's the honest, big-picture number I'm working toward, built one partnership at a time through the tiers above. Every partner, at every level, is part of getting there.

Why I'm Asking

I'm doing this out of faith. I've put everything I have into this — my time, my training, my own money, everything I've got. I'm not asking anyone to give what I haven't already given myself. But I can't get to F1 Academy on my own, and that's where a partnership like this comes in. Every dollar, every product, and every bit of support goes directly toward getting me on track and one step closer to that goal.

Let's Talk

I'd love to talk through which tier makes sense for your business, or build something custom. Reach out any time — I'm happy to send additional photos, video content, or race schedules. I'm super flexible and always willing to cooperate on what a partnership looks like, so if none of the tiers above fit exactly right, let's talk and figure out something that works for both of us.
